I advised Colonel White this morning that we had the [REDACTED] back, and that the one main question, i.e., payment for past services, was still unresolved. 25X1A2g

I believe you and I both felt that rather than submit all these papers to the Director, ~~that~~ perhaps the best solution would be for you and Colonel White to discuss the problem orally with the Director. For background, I have included in this file the old draft memo that you and I developed prior to learning that the Plan had already been approved by I. O. Division.

You will note in paragraph 8 of [REDACTED] memo that approval was given for [REDACTED] to go ahead on the 100% past payment. As I understand it, this was given personally by [REDACTED] and, of course, was not concurred in by any other Agency component.
